

INCREASE PATIENT ACCESS. ACCELERATE YOUR RESEARCH.

PRECISION RECRUITMENT AND IMPACTFUL PATIENT ENGAGEMENT

- Streamlined recruitment and engagement leveraging database of 1.5M+ patients
- Comprehensive EHR, claims data, longitudinal health histories, and real-time patient data to drive informed decisions
- Advanced technology and AI tools to enhance participation, communication, and retention
- Strategically located sites to ensure representation, diversity, and provide alternative care options to underserved populations

DIVERSE EXPERIENCE AND EXPERTISE

- Conducted 575+ clinical trials, involving 9,500+ patients across diverse multi-therapeutic fields
- Team of board-certified investigators with specialized expertise in CardioMetabolic, CNS, GI, and MASH/Liver clinical research

CENTRALIZED, QUALITY-DRIVEN DELIVERY

- Streamlined patient recruitment, commercial operations, finance, HR, and IT to enhance efficiency and alignment across locations
- Uniform patient and sponsor experience across locations driven by operational excellence with a focus on the highest standards of compliance and quality

Prolerity Clinical Research is a leading site network that owns and operates high-performing research sites—including Allied Digestive Health, ClinCloud, and Tandem Clinical Research—to advance clinical trials across diverse, complex therapeutic areas.

The largest gastroenterology and hepatology practice in northeastern US (third largest in the country) with 80+ locations, 350+ providers in NJ and NY, specializing in GI disorders, MASH/Liver, and cancer screening.

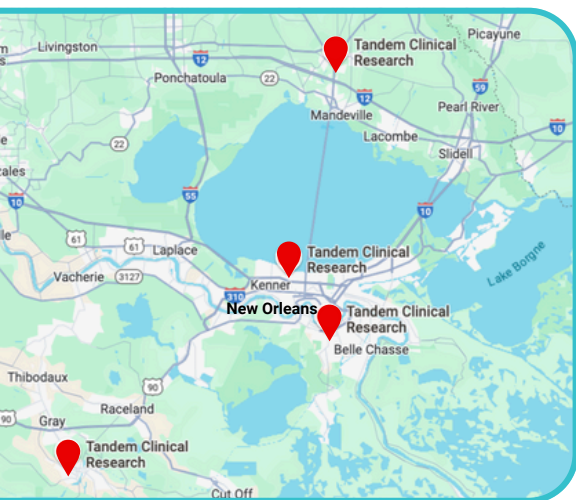

CLINCLOUD

Clinical research sites focused on connecting patients with innovative clinical trials in multi-therapeutic research, with expertise in Alzheimer's, dementias and other neuropsych disorders.

A multi-therapeutic, clinical research site group focused on advancing medicine while improving patient care in CardioMetabolic, GI, MASH/Liver and more.
